

Welcome to Fenton Farms Golf Club

Fenton Farms Golf Club is a public golf club that treats it's guests with Country Club Service. The course has a colorful history dating back to the 1930's when farmer Ralph Crane decided to clear some of his farm land to create a few golf holes. Over the next eight decades the owners and the course name has changed several times.

In the 1990's the club was purchased by a group headed by Jack Bott. Hundreds of trees were brought in, new holes created, and drainage was installed. Each year over the past 10 years, the course and clubhouse have received notable improvements. Our guests have noticed, and have complimented us, "The course and the clubhouse have never been so nice!" Fenton Farms Golf Club is 84 Years old and is still improving its game!

Program Overview

- A “neighbor-helping-neighbor” weekend food program designed to help meet the nutritional needs of participating children who qualify for the National Free and Reduced Fee School Lunch program.
- Each week, volunteers distribute bags filled with enough non-perishable food for the weekend (six meals) to “hunger-insecure” students.
- Each bag contains food such as tuna, peanut butter, macaroni and cheese, soup, fruit juices, pastas, oatmeal, fruit bars, and ramen noodles.
- While it seems unlikely that children in an affluent county like Oakland would go to bed hungry on weekends, in reality, between 4% and 88% of the students in the school districts are at risk. Holly has over 1,500 children who qualify for this program.
- The goal of the program is to keep these students from going hungry on the weekends and remove barriers to academic success.
- The Holly program provides food for 400 children at the 4 Elementary Schools. At an estimated cost of \$64,000 annually. Please help us raise the money to reach this goal for the 2025-2026 school year.

Benefits of the Program

- Research shows that healthy, well-nourished children learn better, are more likely to attend school and are able to take advantage of educational opportunities.
- This program is making a difference in the lives of children. Results we have seen are:

| Increase Test Scores | 45-54% |
| Improved Attendance | 23-48% |
| Decrease Behavioral Issues | 25-35% |
| Greater Attention Spans | 35-44% |
| Improved Class Atmosphere | 47-60% |
